

mjm **42**

Luxury Performance Cruising Built for Lifetimes of Enjoyment

The MJM 42 is a uniquely styled Carolina Downeast cruising design. The highest evolution of a couples liveboard performance yacht, she is all-weather, all-conditions capable. Her unique indoor/outdoor pilothouse opens up for the enjoyment of your surroundings or closes for climate-controlled comfort should the weather turn on you. Built in the U.S.A., The MJM 42 is designed for liveboard comfort, ease of maintenance, 360-degree visibility, and one-level accessibility.

COMPOSITE

MJM'S MARKET-LEADING C5® COMPOSITE CONSTRUCTION PROCESS

MJM Yachts' high-tech structural composites lead the industry. MJM's C5® Process is an aerospace composite technique applied to yachting – a leap in technology vs the earlier wet-preg process. Compared to typical production powerboats, MJM's C5® Process typically delivers half the weight and twice the strength.

An MJM is so efficient that it can plane at 12 knots.
As you accelerate, the bow never rises.

The C5 Process delivers a lower center of gravity,
lighter weight, and greater strength.
